Microsoft UK
Cardinal Place
80-100 Victoria Street
London SW1E 5JL

RSVP:

Prof. S.C.Lenny Koh
s.c.l.koh@sheffield.ac.uk

Scenat.com

Event:

SCEnAT+ is an online supply chain environmental analysis tool that enables companies to map their supply chains and identify CO2 emission reduction opportunities. SCEnAT+ powered by Azure, enables companies to perform better life cycle costing, benchmarking and new indicator identification which all lead to increase revenues and decrease environmental impact.

Join us for an evening with drinks and canapés to celebrate the launch of SCEnAT+ with speakers from Northern Powerhouse, Microsoft, Shaping Cloud, DBL Logistics and the University of Sheffield.
